

Product Information

TNKbeauty Co.,Ltd. 15/4 Soi Pramae Mahakaroon,

Tumbol Baanmai, Amphor Pakkred, Nonthaburi, 11120, www.tnkbeauty.com

Product Name:	Hemp Seed Oil
Species:	RPF3 by HRDI
Extraction Process:	Cold Pressed and Filtered
Cannabinoids:	THC<0.0025%, CBD 0.0701%
Nutrition:	Linoleic acid (omega-6), Alpha-linolenic acid (omega-3) Oleic acid (omega-9), Vitamin E (α -tocopherol)

HEMP SEED OIL

Recommendation Uses: <40% for oral care, hidden spot, and soft gelatin products

0.1 to 100% for general cosmetics products

Moderates oil production and Reduce Acne¹

Hemp oil is perfect for most skin types as it can moisturize without clogging your pores. It can even help to balance out oily skin, hydrating it and regulating the skin's oil production.

Dryness can also cause your skin to overproduce oil, which in turn, can stimulate acne. Hemp oil can prevent dry skin without clogging pores. This helps reduce acne that's caused by excess oil.

Moisturizes and soothes inflammation²

One of the omega-6 fatty acids that hemp oil contains is gamma-linolenic acid (GLA), which acts as a powerful anti-inflammatory while simultaneously encouraging skin growth and new cell generation, while Vitamin E keeping the skin nourished and moisturized.

Hair growth³

The hemp seed oil could improve the fur growing condition of the model mice. The dermal thickness and the number of hair follicles of the model mice were considerably increased. Can be applied in hair growth products.

Anti-aging properties⁴

Hempseed oil can help reduce fine lines and wrinkles as well as prevent signs of aging from developing.

The linoleic acid and oleic acids found in hemp oil can't be produced by the body but can play a crucial role in skin health and anti-aging.

UVB photoprotective⁵

The hempseed oil evaluated UVB absorption capacity (in vivo and in vitro SPF value). It can provide protection against UVB rays.

Can be applied in sunscreen products.
